STARKEY HEARING ALLIANCE

Good communication is important in life and it starts with good hearing!

(843) 272-1486

1. You can hear, but you can't understand certain high-pitched sounds, such as women's and children's voices.
2. You have difficulty understanding when there is background noise, such as in a

Do You Suffer From Hearing Loss?

Hearing loss is often a gradual process that worsens over time. Numerous factors can affect your hearing, including exposure to noise, sports, music and more. To help determine if you may have a hearing loss, take this simple test:

Yes No

restaurant or crowd.

- 3. You are continually asking people to repeat words or phrases.
- 4. You prefer the TV or radio louder than others do.
- 5. You avoid social occasions, family gatherings or group meetings where listening may be difficult.

If you answered yes to any of these questions, you may have a hearing loss and should have your hearing tested. Please call us today to schedule your FREE hearing screening —

802-A 13th Ave S North Myrtle Beach, SC 29582

Custom Fit for Your Comfort

While some sizes offer better amplification for different types of hearing loss, we can ensure you a comfortable fit with minimal visibility. Hearing aids are offered in the following sizes.

Invisible-In-Canal (IIC) Completely-In-The-Canal (CIC) In-The-Canal (ITC)

(843) 272-1486

www.hearingbydesignnmb.com

In-The-Ear (ITE) Behind-The-Ear (BTE) Receiver-In-Canal (RIC)

A hearing loss is more noticeable than a hearing aid.

Our hearing aids are the most advanced digital, programmable technology available. This ensures the

best hearing experience for you, with a comfortable fit and minimal visibility.

Adjustment Period

The 30-day trial is an important adjustment period. During this time, we provide counseling, adjusting, reprogramming and encouragement and are here to answer any questions.
